298 cars

Loading Docks
32 docks

Free Height
12.2 m

Floor Load
5,000 kg/sqm

Uniquely located at the national highways A6, A1 and A27

Location

The warehouse will be developed at business park “De Vaart” in Almere, The Netherlands. Almere is part of the Amsterdam Metropolitan Area, consisting of 32 municipalities. The area is considered the most robust economic area in The Netherlands and has about 2.5 million inhabitants, more than 14% of the Dutch population.

Its strengths include talented entrepreneurs, diverse business activity, good land, air and water infrastructure and excellent digital connectivity.

Accessibility

Almere is located in the province of Flevoland, the newest province of The Netherlands. The warehouse is close to the important Dutch highway A1 (Amsterdam – Germany) and is located directly on the highways A27 (Breda – Almere) and A6 (Muiderspoor – Joure).

The logistics triangle of Almere, Lelystad and Zeewolde is considered a logistics hotspot, as recognized by www.logistiek.nl with a top 3 nomination for logistics hotspots in 2020. In addition to the presence of major Dutch highways, the area benefits from its proximity to the port of Amsterdam, Schiphol Airport and the expected opening of Lelystad Airport.

Almere, top 3 logistic hotspots in The Netherlands
